## **INTRODUCTION**

Jenny Williams  
Chair North Wales Safeguarding  
Children's Board

Neil Ayling  
Chair North Wales Safeguarding  
Adults Board

The North Wales Safeguarding Children Board and The North Wales Safeguarding Adult Board is pleased to publish and present its fourth annual joint strategic plan for 2020-21. The identified fully aligned Joint strategic objectives and priority areas are a reflection of the continuing progress the Board has made in its approach to adopting an all age safeguarding people approach to children and adults at risk in North Wales.

The areas identified for continuing improvement will enable the Board and its members to fulfil their statutory responsibilities as outlined in Part 7 of the Social Services and Well-being Act (Wales) 2014 to protect and prevent children and adults at risk in the region from experiencing abuse and neglect and other kinds of harm.

Serving the citizens and diverse communities of the North Wales region which encompasses six Local Authority areas does not come without significant challenges. The board and its members however continue to be proud of the strong ethos of collaboration and partnership working that has been established at a senior executive board and sub group level. We look forward to the year ahead and continuing to build upon the strong foundations established in the preceding four years to deliver against our objectives and our aspiration to achieve excellence in Safeguarding work, professional practice and the services we provide to our communities.

Protecting and preventing children and adults at risk from experiencing harm and Promoting the Wellbeing of the people of North Wales enabling them to achieve better outcomes remains central to the Board's work.

## WHAT IS SAFEGUARDING?

The Welsh Government” Working Together to Safeguard People Guidance” Volume 1 states that the objectives of a Safeguarding Children Board are:

- a) To protect children within its area who are experiencing, or are at risk of abuse, neglect or other kinds of harm, and
- b) To prevent children within its area from becoming at risk of abuse, neglect or other kinds of harm.

The objectives of a Safeguarding Adults Board are:

- a) To protect adults within its area who -
  - (i) Have needs for care and support (whether or not a local authority is meeting any of those needs), and
  - (ii) Are experiencing, or are at risk of, abuse or neglect
- b) To prevent those adults within its area mentioned in paragraph (a) (i) becoming at risk of abuse or neglect.

It is the role of both boards to set the strategic direction of safeguarding, including policy direction and monitoring the effectiveness of safeguarding within agencies across the region. Boards commission practice reviews and disseminate learning to practitioners which ensures that local learning is widely known and that safeguarding is high on the agenda at all levels of the workforce.

## **WHAT ARE THE STRATEGIC PRIORITY OBJECTIVES OF THE BOARDS**

In order to combine the previous strategic plans of both Safeguarding Boards we undertook work with Board members, sub group members and practitioners to establish our current position in relation to our work plans and agree a baseline. Our completed work items and progress to date will be reported as required to Welsh Government in our next Annual Report

From the Board's Business development day and also to reflect the National Agenda in Wales, we were able to identify two priority areas for the Children's and Adults Board

- 1. To promote awareness and compliance around the New All Wales Adult Safeguarding Procedures (NWSAB)**
- 2. To promote awareness and compliance around the New All Wales Children Safeguarding Procedures (NWSCB)**

The rationale for the choice of these two priority areas is that we need to further promote awareness of the New All Wales Safeguarding procedures but as a region demonstrate over the next twelve months that we have embedded the procedures into practice.

In addition we have improvement areas to continue to work on:

Strong Leadership & Evidenced Compliance

Increased Knowledge & Continuous Learning

## **COLLABORATIVE WORKING**

Across North Wales we have a long history of collaboration across agencies and partnerships. This collaborative work is reflected in the membership of both of our Boards which includes not only the statutory partners prescribed in guidance, but also voluntary sector partners and those where safeguarding is an integral part of their work.

This inclusive approach allows us to include partners who can influence the safeguarding agenda on a local, regional and national level. This is demonstrated by our closer working relationships with the Office of the Police and Crime Commissioner, Safer Communities Board, the Coroner and nationally recognised bodies such as Older Peoples commissioner / Children's Commissioner and the NSPCC / Barnardos Cymru

Board members ensure that the work from relevant partnership groups is recognised and reported at Board level. In the coming year we plan to develop these collaborative links.

We will continue to work in close partnership with the National Independent Safeguarding Board (NISB). Our link member attends all Board meetings and provides regular updates on the work of the NISB.
